

ABSTRACT AMENDMENT

Please amend the abstract as follows:

The invention relates to an optical connector system (1) comprising including a backpanel (2) and at least one substrate (3) having at least one substrate housing assembly (30) and a first interface part (7) for establishing an optical interface. The backpanel (2) comprises an integrated second interface part (8) adapted to complete said optical interface and said substrate housing assembly (30) is adapted to provide relative movement of said substrate (3) with respect to said optical interface.
